

Mental health, violence, culture and resilience in Maré

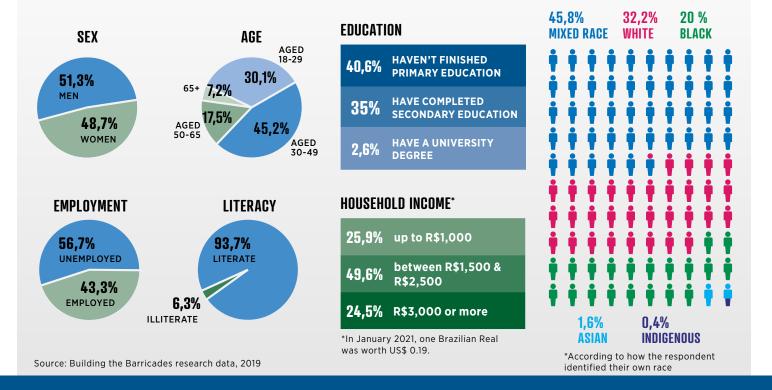

**RACE**\*

Carried out between 2018 and 2020, this is the first ever research project undertaken that focuses on the impact of violence on mental health in favelas.

### **RESIDENTS' PROFILES**

1,211 household interviews taken from a population sample of 101 thousand adults

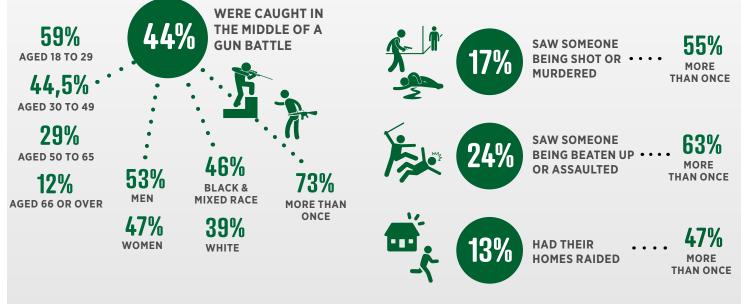

Building the Barricades is the result of a partnership between People's Palace Projects and Redes da Maré, together with the Queen Mary, University of London, the Social Services Faculty and the Institute of Psychiatry of the Federal University of Rio de Janeiro/UFRJ, and the Centre for Studies in the Economics of Culture from the Federal University of Rio Grande do Sul/UFRGS, with the support of the Economic and Social Research Council and the Arts and Humanities Research Council, through the Global Challenges Research Fund.

### **ARMED VIOLENCE**

The experiences of armed violence for adult residents in the 12 months prior to the research:

# at some time in their life, more than 25,5% knew a close acquaintance who was injured or murdered
